Welcome to Hemknoll

"Home of Fine Hems Since 1931"

As I write this word of welcome to old and new gardening friends alike, I view a late January garden partially covered with snow and without any visual signs of life other than our hardy bird friends at the bird feeder. Now the only splash of color is the saucy Blue Jay or the timid Cardinal and his mate, but come the summer months the Daylily will take over the garden with reds, yellows, pinks, and oranges in all sorts of shapes and forms. Yes, the last 25 years have brought about such wondrous changes in this grand flower. A flower that is robust, hardy, and very easy to grow, with enough different variations in colors, forms, sizes, and heights to please everyone. The wide range of types, their ease in growing, and their abundance of bloom during the summer months when bloom is scarce makes them ideal for the very foundation of any planting. So even with my dreary view of the garden this day, I can visualize spring bulbs to come; flowering crabs, dogwoods, and shrubs that will become the home of robins, thrashers, and song sparrows; and thousands of Daylilies that will fill the garden with their color and fragrance from June to August.

This year, as with all others, we have so many new varieties we are growing that we may bring some of the very best into your gardens in the years to come. The 1959 growing season was a good one with rains that came at the right times to keep plants actively growing into husky plants as well as fine bloom, so that we are proud of our quality plants. We expect to bloom an unusually large number of the most talked about new varieties as well as a good number of our own selected seedlings.

We are most happy with the splendid reports that came to us of the way that our Bright Day, Bright Spangles, Chatham, and Moon Maid grew and bloomed for those that tried them. This year we again offer four new seedlings: Alice Dustan, a wonderful garden or landscape yellow that is weatherproof; Bewitching, a heavy blooming late pink; Hearts Content, a very different melon; and Beau Ideal, our Junior Citation winner which we have only in a limited supply. These have been thoroughly tested and found to be excellent in every way.

It is most gratifying to have served so many nice people last year as well as thru the years and we surely appreciate the many fine letters that you sent and which we were unable to answer. It's our pleasure to continue to serve your plant wants.

CULTURE—Daylilies will grow in almost any type of soil, however it is best to avoid low wet spots. They do best planted where they will get at least 4 hours of sunlight a day. Thorough watering at blooming time will give larger and better colored flowers. When once established they need no moving for years. Complete planting instructions will accompany each order, as well as growing hints.

SHIPPING—March 15 thru May and August 15 thru November. All plants are husky, freshly dug, labeled true to name, and carefully packed. We take pride in our quality of plants.

TERMS—Cash with order. Orders of \$5.00 or over **prepaid**. Add 50 cents for packing and postage on orders for less. **If you add 50 cents for postage to any order of \$5.00 or over you may select any \$1.00 plant as an extra.**

PREMIUMS—Orders for \$10.00 to \$25.00 select 15%, over \$25.00 select 20%, in **EXTRA PLANTS**. Or we will send you something extra that we hope you will enjoy. *No discounts* on collections or items marked net. You will like our husky plants.

LEGEND: E—Denotes early bloom; M—Midseason bloom; L—Late bloom. Height in inches. The letter E. or S.E. following description denotes evergreen or semi-evergreen varieties, all other dormant. Number preceding variety indicates position in 100 Most Popular as selected by members of the American Hemerocallis Society in 1959 Popularity Poll.

WELCOME—For those of you who can, we welcome your visit during July and August—the height of our season. Here you can see over 500 varieties in bloom as well as many of our own seedlings. We are located on Reynolds Avenue in Troy Hills, about halfway between New Jersey Highway 10 and 46. Best to phone first. TUCKER 7-2710.

HEMKNOLL INTRODUCTIONS

ALICE DUSTAN (Baker '60) M 36-38" (Sedlg x Samarkand) An excellent, clean, golden yellow self for landscaping with dark green foilage. Large sunfast blooms are weatherproof. S.E. (See Page 2) Net 10.00

AMBER FLAME (Stevens '56) ML 40" Huge, triangular buff apricot self 2.50

BEAU IDEAL (Baker '60) ML 36" (Revelation x Samarkand) Large widesread, broad petaled, pinwheeled shaped flowers of apricot orange with cream midrib and margins. Sunfast with fine green throat. J.C. 1959. S.E. (See Cover) Net 15.00

BEWITCHING (Baker '60) L 34" (Stevens 43-2 x Confidence) Widesread, sunfast, creamy pink bitone with almost white midribs and cream yellow throat. Well branched and quite floriferous. (See Page 1) Net 7.50

BRIGHT DAY (Baker '59) ML 48" Large, widesread, broad petaled non-fading rose red with greenish yellow throat. Good branching, sturdy scapes with several flowers out at once makes this a fine one. (See Page 2) 10.00

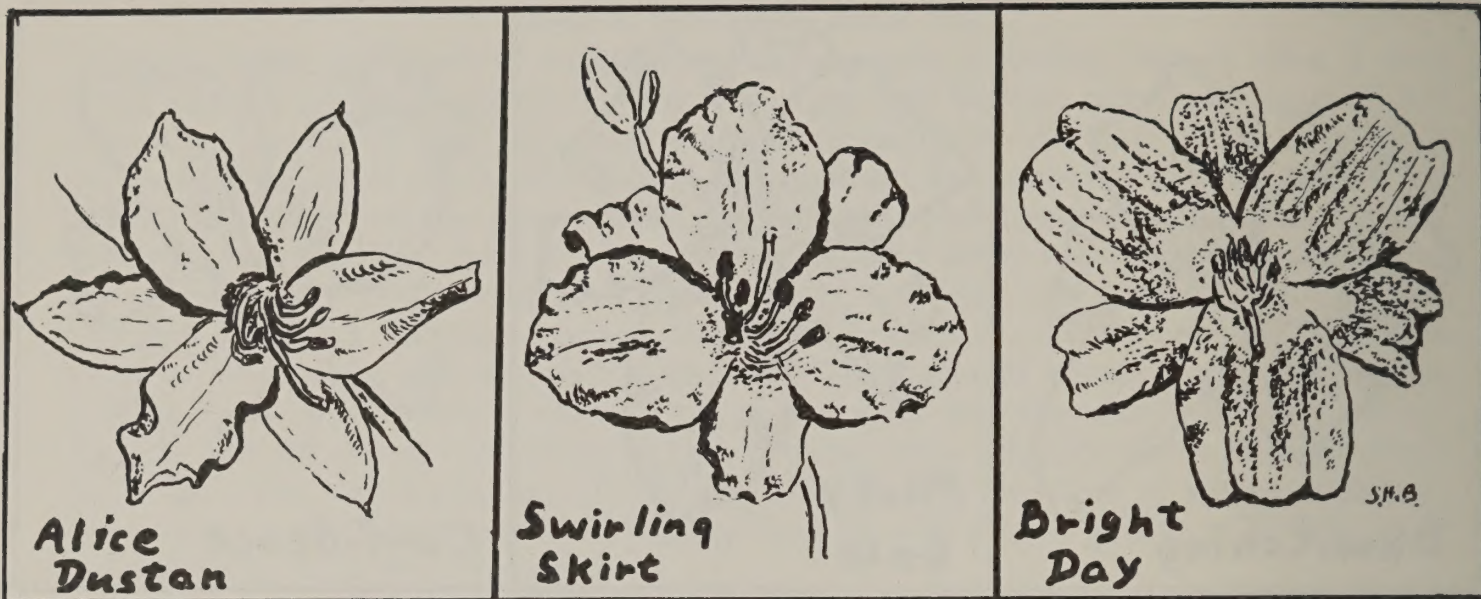

BRIGHT SPANGLES (Baker '59) M 42" Almost flat, open, medium sized flowers appear to be a dazzling orange red. Upon inspection it's a rich gold that is very heavily dusted with a brilliant red. The sepals are more heavily dusted so that it's a true reverse bicolor. A green gold throat, slight fragrance, broad petals, and sunfastness lends to its excellence. 8.00

CENTURION (Stevens '56) ML 40" A fast growing, glowing red between Napal Red and Brazil Red with as many as five blooms out at a time on very well branched scapes. The medium sized blooms are broad and widesread. S.E. J.C. '55. (See Page 3) 4.00

CHATHAM (Baker '59) L 33" An addition to the later flowering daylilies and one that is particularly fine in clumps. Noted for its fine flowering and growing habits. A very broad petaled, flat open faced, golden butterscotch with slight darkening in throat and slightly recurving at tips of petals. (See Page 6) 5.00

CONFIDENCE (Baker '46) M 34" Very broad, vivid, salmon peach flowers with greenish throat. Late in the day fades to a smooth pink. Wonderful grower and parent. (See Page 1) 5.00

NET ONLY

HEARTS CONTENT (Baker '60) M 32" (Tudor Rose x Confidence) Not just another melon but an oyster shell buff with an overcast of daybreak pink and a fine green throat that does not burn in full sun. Widespread with heavy substance. (See Page 13) Net 15.00

KEY LARGO (Baker '55) L 32" Full, widespread 5" light cream, good for prolonging season. Heavy bloomer. S.E. 2.50

LIME RIPPLE (Baker '57) M-ML 38" Ruffled, fragrant, sun-proof yellow. This one stays open late in the evening and has that greenish yellow coloring so useful and cool looking in the garden. Full, widespread blooms of good size. S.E. 10.00

MISTY GOLD (Baker '58) M 34" This fragrant, broad petaled, soft, pale misty yellow with slightly reflexed petals that have a slight creping, wonderful substance and extra fine branching. (See Page 1) 12.00

MOON MAID (Baker '59) ML 30" Wonderful branching, sunfast cream yellow with much lighter midribs and margins. Nicely ruffled, widespread blooms in abundance; makes fine clumps. (See Page 12) 5.00

REVELATION (Baker '55) M 30" (Orange Sdlg. x Samarkand) Huge, absolutely sunfast, broad, widespread blooms of rich cinnamon. Remains open late. Fine parent. S.E. (See Page 13) 5.00

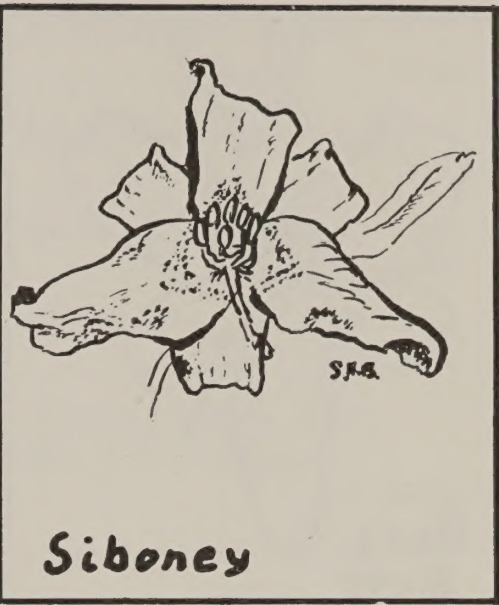

SIBONEY (Stevens-Baker) M-ML 34" Very prolific, medium sized, rich peach with green yellow throat. (See Page 3) 2.50

95. **SPLENDOR** (Stevens '55) ML 34" This exciting large, widespread, sunfast crimson with 6" blooms is, day in and day out, just about the best in the crimson class. As it nears the small green throat the rich coloring deepens. D. J.C. '54. H.M. '55. 10.00

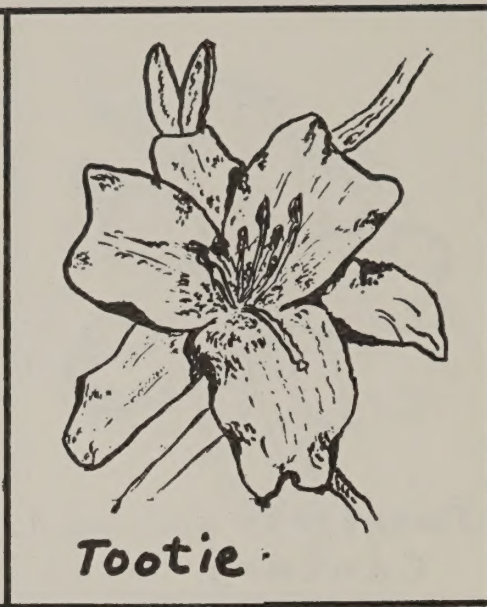

TEMPLE ORANGE (Baker '58) ML 30" Large, broad petaled, flaring, intense orange that has proven a good performer. An absolute self with color running down in a tiny green tinted throat. S.E. (See Page 11) 5.00

TINKER BELL (Stevens '55) EM 28" A novel, well branched twice blooming orange miniature multiflora. 2.50

TROY HILLS (Baker '56) EE 24" Pertly ruffled, sunfast, medium sized blooms with stippled maroon zone. Good landscaper. (See Page 11) 3.00
